

KINESIOLOGY: COACHING

The discipline of Kinesiology explores the art and science of human movement. In the Kinesiology program, students develop an appreciation of the human body and its tremendous potential, as well as an understanding of the relationship between positive lifestyle choices and long-term improvements in health and well-being. Students seeking a Bachelor's degree in Kinesiology will complete a program of study with course work in one of four emphases:

1. Exercise Science and Health Occupations
2. Health and Fitness
3. Sport Studies
4. Coaching

This emphasis area prepares students interested in a career in sport coaching. Students will learn the various responsibilities of being a coach, including safety and injury prevention; planning, managing, and evaluating performance and competition; and providing healthy environments for participation and competition.
