

NATURAL SCIENCES MINOR

The Natural Sciences minor provides students with an understanding of the concepts and principles of applying scientific inquiry. Students will be exposed to a range of scientific disciplines. The minor is especially valuable for students in a STEM program such as Biology, Chemistry, Computer Science, Earth Science, Engineering, or Mathematics who want to develop a deeper appreciation of other scientific fields.

The minor is not solely, or even primarily, for Natural Sciences & Mathematics majors. Students from many allied programs, including Kinesiology, pre-Nursing and Education, often pursue minors within the Division. Students interested in acquiring a minor for teacher certification should first consult with their academic advisor and the Education Division.

Program Requirements

Code	Title	Credits
Select at least one course from each of the following areas: ¹		20.00
	Physical Sciences (PHYS or CHEM)	
	Biological Sciences (BIOL)	
	Earth Sciences (GEOL)	
Total Credits		20.00
