Introduction to the Social Sciences Division

The Division offers six baccalaureate majors and two associate degrees. The baccalaureate majors are General Studies: Social Sciences; History (with an optional emphasis in Public History); Justice Studies; Psychology (with a option for Secondary Certification); Social Work; and Social Sciences with emphases in History/Secondary Certification, Political Science, Sociology, and Anthropology. Social Science coursework can also be used to support the Interdisciplinary Studies baccalaureate degree. The Associate of Arts degrees are Behavioral Science and Justice Studies.

All the majors in the Social Sciences Division provide preparation for a variety of careers and/or graduate school. In addition, the Social Science major, when taken as part of an integrated secondary education program, prepares students for professional teaching. The Justice Studies major includes emphases in Policing and Law Enforcement, Law and Legal Systems, and Corrections and Human Services. The Psychology major is for students who wish to pursue graduate study in the discipline, or those who seek careers in human services and community agencies. The Bachelor of Social Work program's focus on the "Person-In-Environment" paradigm uniquely equips baccalaureate social workers to work effectively with individuals, families, groups, communities, and organizations.

The Social Sciences Division lends vital support to the college through its participation in the General Education Core. All students are required to complete six Social Science credits as part of Core, and the Division provides a variety of courses for fulfilling this requirement.

The Social Sciences Division does not discriminate on the basis of race, color, religion, age, sex (including gender identity, sexual orientation, and pregnancy), national origin, physical or mental disability, protected veteran status, genetic information, or any other status protected under applicable federal, state or local law.
