

HEALTHCARE EDUCATION CENTER

The Healthcare Education Center (HEC) at Lewis-Clark State College serves as a regional hub for excellence in healthcare education in North Idaho. With over 60 years of experience, LC State offers a comprehensive range of programs, from certificates and associate degrees to bachelor's and graduate-level studies, designed to prepare students for dynamic careers in the healthcare industry.

In the Healthcare Education Center, we are dedicated to preparing compassionate, skilled, and knowledgeable healthcare professionals. Guided by LC State's mission to prepare students to become successful leaders, engaged citizens, and lifelong learners, our programs offer a blend of rigorous academics, hands-on clinical training, and community-focused learning. Whether you're pursuing a career in nursing, radiographic science, medical assisting, or other allied health fields, you'll find expert faculty, modern facilities, and a supportive environment to help you thrive. Discover how you can make a lasting impact in the healthcare field with a strong foundation from LC State.
