

# EARLY CHILDHOOD DEVELOPMENT AAS

The Early Childhood Development AAS program prepares students with necessary skills to be qualified for a variety of early childhood positions. The program emphasizes cognitive development, fine/gross motor physical development, social and emotional development, language and literacy development, and self-help skills of children birth through age eight. The AAS degree offers basic early childhood education which prepares students for careers in the following areas:

- Early childhood assistant teacher
- Lead teacher position in private childcare facilities
- State quality systems consultant
- Parent educator
- Home-based education service provider
- Resource and referral specialist
- Special education teaching aide

Entry into Early Childhood Development courses requires that students work with children. Students enrolling are required to complete a criminal background check before beginning the second semester or will not be allowed to register. Instructions on how to initiate the background check procedure will be provided by the program advisor. Upon completion of the Early Childhood Development program, students will be able to:

- o Establish and maintain a safe, healthy learning environment
- o Advance physical, intellectual, and linguistic competence
- o Support social and emotional development and provide positive guidance for young children
- o Foster positive and productive relations with families and the community
- o Ensure well-run, purposeful programs responsive to participant needs
- o Maintain professionalism and ethical conduct

Completion of a Technical Skills Assessment is required.
