

ACCOUNTING BS

The Accounting major provides students with the necessary competencies for careers in the accounting field. The program is based on the Common Body of Knowledge recommended by the Institute of Management Accountants (IMA). The curriculum provides students with the accounting and management skills to collect, analyze, and evaluate financial information, to integrate and effectively communicate financial and non-financial information, and to provide leadership to business enterprises through an awareness of the social, legal, economic, and ethical considerations that impact organizational decisions. This program effectively prepares students who plan to sit for the CPA Exam.

Accounting Program Outcomes:

1. Explain the major concepts in the functional areas of accounting, marketing, finance, and management.
2. Evaluate the legal, social, and economic environments of business.
3. Describe the global environment of business.
4. Describe and explain the ethical obligations and responsibilities of business.
5. Apply decision-support tools to business decision making.
6. Construct the present effective oral and written forms of professional communication.
7. Apply knowledge of business concepts and functions in an integrated manner.
