

Geographic Information Systems Minor

The GIS minor equips students with a highly marketable and versatile skill set applicable to a wide range of careers. Through hands-on experience with geospatial technology, students learn to analyze and visualize spatial data.

This minor is especially valuable for students majoring in Biology, Business, History, Social Sciences, or Computer Sciences, but it can enhance almost any field of study.

Program Requirements

Code	Title	Credits
Geographic Information Systems Requirements		
GIS-271	GEOGRAPHIC INFORMATION SYSTEMS	4.00
GIS-471	ADVANCED GEOGRAPHIC INFORMATION SCIENCE	4.00
GIS-481	DIGITAL REMOTE SENSING	4.00
Computer Science Requirements		
CS-108	INTRODUCTION TO COMPUTER SCIENCE	4.00
CS-111	COMPUTER SCIENCE 1	4.00
CS-226	SQL: STRUCTURED QUERY LANGUAGE	3.00
Total Credits		23.00
