

NATURAL SCIENCES MINOR

The Natural Sciences minor provides students with a foundational understanding of scientific concepts and the principles of scientific inquiry. Through coursework across multiple scientific disciplines, students gain an interdisciplinary perspective and develop critical thinking skills. The minor is well-suited for science and mathematics majors seeking broader scientific context, as well as for students in other fields who wish to enhance their academic program with deeper knowledge in science and mathematics. Students pursuing teacher certification should consult their academic advisor and the Education Division before selecting this minor.

Program Requirements

Code	Title	Credits
